Education

High school diploma in Mathematics and English High school of Mathematics "Dr. Petar Beron" at Varna, Bulgaria | September 2012 - May 2016
Mathematics - Calculus 1
English - level C4
General high school education

Bachelor's degree in Computer Systems and Technologies Technical University at Varna, Bulgaria | September 2019 - Present
As a student specializing in computer systems and technologies, my subjects of study are the design and use of computer systems and networks, information technologies, the improvement of the architecture of computer systems and networks, systems with parallel processing, systems with artificial intelligence, dialogue and office systems, tools for system and application programming and Internet applications.

Professional Experience

Team member - Naked Lunch Mom's organic market | February 2018- March 2019
I had the responsibility of running a small, all organic vegan kitchen. My everyday activities included: shop organization, routine produce orders, quality control, daily food prep, fulfilling customers' orders, cashiering, as well as opening the establishment for business and closing it.

Computer and printer technician - Intern Tempus 2000 | March 2022 - February 2023
In this internship program I became a part of a team of computer and printer technicians. I was mentored in every part of the company's activities including: network setup of office printers, computer maintenance and optimization, data recovery and beginner wordpress website development.
